Made For Life

The Steelite International Lifetime Edge-Chip Warranty is your assurance that all Performance and Distinction products manufactured in our UK factory are fit for purpose.

All Performance and Distinction products are made with high-alumina content to ensure ultimate strength. Vitrified Ceramics prevent crazing and cracking that lead to bacterial ingress over time, thus enhancing sanitation and food safety efforts. Each piece is inspected, examined and tested so you can be confident it will withstand the rigours of the modern commercial kitchen and remain chip-free. This commitment to quality excellence ultimately results in product that you will replace less often – great for your kitchen, great for your long term costs and great for the environment.

- 
Secure Handle Adhesion
 Every time you serve a customer with a Performance or Distinction cup or mug, relax in the confidence that the handle has gone through 7 different quality checks to ensure it stays where it belongs – on the cup!
- 
Stackability
 Stackable shapes result in space-saving solutions! A fully glazed base minimises contact, preventing damage and wear.
- 
Microwave & Freezer Safe
 Our products offer complete versatility. However you work, be confident our products work with you.
- 
Thermal Shock Resistance
 Performance and Distinction products withstand temperature fluctuations of up to 350°F. Work with our products and work with confidence.
- 
Heat & Chill Retention
 Piping hot main course or ice-chilled desserts, serve your food as it is meant to be served.
- 
Stain Resistance
 All products have great stain resistance, which means you can work comfortably with any food time and time again... without leaving a trace.
- 
Glaze Damage Resistance
 Durable transparent glaze on our white or decorated items provides an excellent quality finish and great performance in service.
- 
Dishwasher Safe
 Our products withstand the dishwasher better than most by enduring the rigours of the food service industry wash after wash.

Environmental & Sustainability Practices

Steelite International work closely with a number of suppliers and organisations, and are continually monitoring, developing and improving procedures to create minimum impact on the community and environment, while ensuring maximum efficiency and cost savings for the future sustainability of the business.

Steelite International is a member of The Green Organisation that rewards and promotes environmental best practice around the world, and the Staffordshire Business & Environmental Network, which aims to help local businesses reduce environmental impacts while also generating profits.

We have a dedicated and innovative approach to caring for the environment. In 2019 Steelite were awarded an engineering gold Green Apple Award for the implementation of a waste water centrifuge system.

Our new centrifuge system works by spinning waste material out of waste water at very high speed, the water is separated from waste glaze and then reclaimed saving around 20 cubic metres of water per day. This has dramatically improved the quality of waste water that does leave site. A part from significantly reducing water, it saves glaze and lowers energy usage on site too.

In 2007, the business became one of only five companies in the UK to install a Lamella system. Steelite is the only tableware manufacturer to use a Lamella system for recycling clay waste.

In addition to clay recycling, fewer chemicals are now required to separate waste. This has a positive effect on the environment and water discharged from the site is also purer.

The Lamella has significantly reduced Steelite International's impact on the environment. The company now recycles in excess of 99% of manufacturing waste. In 2010 we received a Green Apple Award for the Lamella project.

PETER BRADLEY DIRECTOR OF FOOD AND BEVERAGE • The Westin London City, UK

Opened in 2021, The Westin London City hotel boasts an impressive riverside location and spectacular views over London's historic River Thames. Carefully designed with sympathy for local elements, every detail of this spa hotel has been curated to ensure customer experience is of the highest level. This includes the F&B offerings, whether it be in Hithe + Seek, a stunning wine bar with panoramic London views, or Mosaic, the convivial all-day dining restaurant. "I think the Art of Presentation is an excellent way of describing it because presentation is an art. It's not just about sitting down and having food or drinking a cocktail. It's about what it's served on. The reason we went with Steelite is because they proved themselves to be the best."

IVAN CAPO HEAD CHEF • Weisses Rössli, Switzerland

Weisses Rössli has been part of Damn Delicious GmbH, the gastronomy business run by Federico Freiermuth. Federico bubbles with creativity and is constantly coming up with new ideas for Zurich's gastronomic scene. In September 2023, and at just 28 years old, Ivan Capo took over the helm in the kitchen. "I found that Steelite offers high-quality products that perfectly meet my specific requirements. Steelite's offerings consistently exceed expectations, providing customers with reliable solutions that fulfil their needs effectively. This commitment to quality ensures customer satisfaction and fosters long-term loyalty".

MASSIMILIANO MASCIA HEAD CHEF • Ristorante San Domenico, Italy

Opened in Imola in 1970, San Domenico had earned its first Michelin Star in 1975, shortly followed by its second in 1977. Right from its beginnings in the 1970s, the San Domenico took a whole new approach to the restaurant business which had, until then, simply been seen as an alternative to the domestic model. "At the Ristorante San Domenico of Imola, the kitchen has close ties to the land, it is a place where we seek out the best ingredients, grown under the best conditions; it is a place of constant evolution, where new techniques are at the service of tradition." "As I see it, respect for ingredients and their seasonal freshness is essential as it lays the foundations for further research and innovation of preparation techniques".

SIMON HULSTONE CHEF PROPRIETOR • The Elephant, Torquay UK

Run by chef proprietor, Simon Hulstone and his wife Katy, The Elephant was the first restaurant in Torquay to be awarded a Michelin star & the only one to retain it. Which it has maintained since 2006. The restaurant offers a delicious à la carte menu and set menus featuring fish, meat and vegetables all sourced locally from the surrounding area. All dishes served at The Elephant change regularly depending on the locally grown and reared ingredients that are best. Many of these are sourced from their dedicated farm. "I've been working with Steelite for 20 plus years and not once has Steelite sat still, every season a must have range has been designed that sits perfectly with my restaurant, my food and my customers."

ASMA KHAN FOUNDER • Darjeeling Express, London UK • First British chef to be featured on Netflix’s Chefs Table • Author of The Times Cookbook of the Year 2022, Ammu: Food to Nourish Your Soul, from a Life of Cooking
Darjeeling Express started as a dinner for 12 guests at home, serving Indian food lovingly cooked from family recipes that go back generations. Though the restaurant has changed and grown over the years, Steelite have been there every step of the way. “Bringing a dish to the table is a very personal thing. It presents your entire brand so it has to be beautiful and meaningful. It’s been a huge difference to work with a company so big but they came across so personal. That’s the real achievement of Steelite, and for me, that’s the art of customer service.”

GENI PERRAMÓN CHEF • The Tavern of the Gourmet, Alicante Spain
The Tavern of the Gourmet is a space where innovation is at the heart of service. Organic and traditional flavours, succulent tapas and montaditos, and salted cheese are prepared in a lively bar using the highest quality ingredients. The Tavern of the Gourmet is an example of the basic pillars of good cuisine: the best products, nice, comfortable space and professionalism. A gastronomic space that you must stop and visit. “Steelite is synonymous with bringing elegance to our tables. Excellent durability and service from the factory, also a lifetime edge chip warranty gives us peace of mind.”

IACOPO VANNINI CHEF PATRON • Restaurant Villa Garzoni, Collodi Italy

The restaurant Villa Garzoni can be found in Collodi, the province of Pistoia revealing a perfect blend between the Tuscan traditional flavours and the innovation of contemporary cuisine, in a picturesque location. “There are moments in life when you meet someone for the first time and you feel you already know them. When I saw Steelite for the first time I was speechless, I knew I had found what I was looking for. I will continue to use Steelite for the rest of my professional life.”

BRIAN LANDRY CHEF/OWNER QED HOSPITALITY • The Kitchen Table Clermont, KY

Our restaurant, The Kitchen Table, is located on the Kentucky Bourbon Trail. When opening our restaurant, we wanted pieces that were upscale and comfortable, pieces that would highlight the nature of the Bourbon Trail. The Steelite products we selected are the perfect balance between high-end quality and comfort.

JARED TEES EXECUTIVE CHEF • L'Auberge Casino & Hotel Baton Rouge, LA

Steelite always has something fresh on the horizon, and the collaborations with artists allow me to create a beautiful experience for our guests. The variety, from high end to casual and for specialties like Asian and sports bars, has enabled us to use it exclusively across multiple concepts. I appreciate that continuity, as well as the quality, pricing, and reliability. Working with the same reps over the last decade has also made this part of my job joyful.

KIMBERLY LALLOUZ CHEF • Restaurant Monsieur Montreal, Quebec

Steelite is everywhere around me - it's in all of my restaurants, in most of my photoshoots, and even my #1 choice for international competition plates. From Birdbar's laid-back fried chicken and champagne comfort dishes to Restaurant du MAC & Monsieur Resto+Bar more delicate and soignée plates. I love the variety, durability and look of the brand; there's something for everyone from the various lines that are offered. Customer service and client support are bar none, so it's a true pleasure for me to work with the reps and products alike every season.

GLASS

Smooth, modern lines provide a dramatic tabletop statement

Offering a modern departure from the traditional table setting, Sheer takes geometric design to new levels. Cool and contemporary in style, Quadro looks equally stunning with its softly rounded corners and curved edges. An ideal complement to the modern ranges of Sheer and Quadro, Neo offers a smooth, refreshing take on traditional shape and design. Likewise, Contour offers a truly individual presentation, with seamless lines and a modern twist on round tableware.

David Kinch

A daring pattern for a dramatic presentation

Koto, one of Steelite International's most unique ranges, was designed in collaboration with world renowned chef, David Kinch. The inspiration was drawn from ancient Japanese Tenmoku Glazes. These beautiful glazes vary subtly in texture and tone from piece to piece, embodying the craft of the traditional potter. The pieces are hand finished with a rich iron red glaze, which interacts in the kiln to produce a warm, organic, lustrous effect. The deep black textured surface allows food to be perfectly framed, adding drama and contrast to your presentation.

The original Craft

Craft is inspired by hand-crafted, simple country wares made by generations of potters over hundreds of years. The range embodies the beauty of rich, lustrous glazes applied by hand, and celebrates chance effects and reactions which occur naturally in the kiln. The gem-like glazes married to simple forms and shapes produce a unique and individual appearance, giving Craft a rustic "joie de vivre".

Exciting & unique; no two pieces alike

The Vesuvius range is a collection of stunning reactive glazes, including Amber, Lapis, Burnt Emerald and Rose Quartz. Taking their names from some of nature's more precious materials, these glazes complement and contrast with each other and provide a rich and exciting platform for today's eclectic and diverse menus.

Due to the unique hand decorated design of this range each item will be slightly different in colour and texture.

Nuanced artisan experience

Using reactive glazes that change in colour and intensity depending on their application, Revolution glazes are specially formulated to enhance all the nuances experienced in their execution. Applied by hand using a revolving motion, the path the brush travels across each piece is evident in the fired result. The glazed surface of each piece in the range is as different and unique as the artisan that created it. This provides an ideal platform for Chef to showcase their art, no matter what the cuisine style.

Casual and easy-going style

The use of hand-applied reactive glazes on Revolution Edge frames food beautifully, allowing for a slightly more formal approach to relaxed presentations. Revolution Edge allows food to be presented on a clean white platform complemented by a contrasting colour field. This has the effect of highlighting Chef's creativity, allowing it to speak for itself.

Revolution Edge can be used as a single colour presentation or mixed and matched freely with others in the range. It also co-ordinates beautifully with Revolution for a more casual and easy-going style.

Natural, earthy, organic

Inspired by nature's free forming lines, Petra introduces an organic aesthetic. The earthy design is lifted by the glaze applied, bringing a contemporary feel to the collection. Petra Dune pairs well with our Steelite Performance Amari range, Brown Dapple and Revolution Sandstone.

Beautifully fractured linear patterns

Crackle patterns have a long and distinguished history going back millennia. Crackling occurs when the glaze does not fit the clay body of the ware correctly, causing it to fracture into beautiful linear patterns, covering the entire surface of the glazed piece. Available in two colourways, Black and Grey, Crackle will add texture and nuance to casual and contemporary food presentations and is aesthetically compatible with both plain white and many of our craft inspired ranges.

Heightened senses, amplified presentation

Urban appeals to a sharper, city aesthetic where food is still tied to the traditional values of honesty, integrity and authenticity, but requires a slightly more formal, more defined and refined presentation style. Emulating a concrete look, Smoke is a new collection of tableware that takes its inspiration from the aesthetics associated with the act of cooking. The subtle and nuanced tones of grey contrast with the darker reactive elements to mirror the effects of browning and searing, creating a connection between the food and the plate.

Crisp, timeless, and elegant styling

Bead defines a classic approach to dining, one which embodies best practice for back of the house ease-of-use while delivering beautifully presented dishes to delighted diners. This range consists of two elements: Bead and Bead Accents, which can be mixed for a personalised collection. A classic linear design is carried across the main collection of Bead items, while the Bead Accents component offers an alternative decorative style to key presentation items alongside the classic iteration. The Bead Accents decoration provides a contemporary element that adds texture and visual excitement. With a strong selection of plates, bowls, beverage, and hollowware, the Bead range is suitable for a range of concepts, including casual, upscale, banqueting and buffet.

Classic contemporary

The addition of a hand-applied wash of colour to the Bead range provides a subtle but refreshing accent. This softens the look and adds a casual approach to the way Bead presents food. Classic, timeless, and perfectly proportioned, the Bead range takes on a Scandinavian feel in either the truffle or sage colourways and works brilliantly in either a traditional or contemporary setting.

Frosted edge

This collection has been created in collaboration with two-starred Michelin chef Brett Graham. The rimless design means there's no visual distraction from the finest cuisine, while the frosted edge prevents finger marking as the plate is set down on the table. Extra weight has also been added to the centre of each plate, to optimise retention of heat or cold.

Profiles in elegance

Essence is a new shape in porcelain designed by Rene Ozorio. The collection of rimmed presentation and banquet plates, coupes, trays, and bowls provide a clean, modern look for tabletops and food presentation.

For Rene Ozorio, Essence signifies “the return to the pure nature of white porcelain in a shape whose sculptural simplicity speaks of modernity.” The thin, elegant profile provides a light & contemporary product that is durable and ideal for hotels & restaurants.

“In praise of shadows” ~ Jun’ichiro Tanizaki

Atelier: the name evokes the hand of craftsmen and the tradition of artisanal fabrication. The realisation of this fluid optical design was through the collaboration with artisans, who hand carved the models for each piece. The calculation of the embossment and the glazing produces an effect of ebbing water in the tide pools. Designed with fine dining in mind, the lightness in weight and porcelain colour speak of quality and craftsmanship.

“Atelier is inspired by nature, light and shadows. I was reminded of the days by the sea, watching the changes in the sand & pools of water brought by the ebb & flow of the tides. The element of water in motion.” ~ Rene Ozorio

FOLIO

The perfect canvas for creative food presentation

Introducing Folio by Steelite, a truly remarkable collection tabletop items that have been meticulously crafted and curated by the esteemed design team at Steelite. With a rich history of creating exceptional dinnerware collections, Steelite's unparalleled expertise is showcased in the creation of Folio.

Designed with the Chef in mind, Folio expands on Steelite's vast collection of hospitality solutions through thoughtfully designed ranges to elevate new and existing table and banquet services in an exploration of shapes and materials.

Classic, stackable, functional

The Concorde range is imbued with the sophisticated aesthetics of classic Mid-Century styling. Clean lines and a fresh, understated tactile surface are balanced with a warm, approachable, off-white body colour to provide a casual yet crisp food presentation style.

All items are carefully designed to be discretely functional in a busy kitchen as well as providing excellent durability. Stackability is a key feature, enabling efficient storage of items, as is compatibility which allows different items to be stacked together and use a common saucer.

Using both coupe and rimmed profiles, the Concorde range provides a modern, yet functional aesthetic to showcase the very best cuisine.

Simple, tactile, embossment

The Terrace range brings together the look and feel of Stoneware with the timeless appeal of a simple, tactile embossment. The range utilises semi-matt glazes which pool and interact with the embossed surface to give the impression of hand-worked, semi-precious stone.

The embossment is carefully arranged to draw the eye to the centre of each piece, where the focus is on the food, framing it perfectly. In addition to a useful range of standard coupe plate sizes, Terrace comprises a full suite of bowl sizes and shapes and a comforting beverage collection.

Coloured and neutrals/semi-matte glazes

Maham is a designer specialising in ceramics for chefs and restaurants. She has worked with the design group Queensberry Hunt for over 15 years on various design projects as well as working as an independent designer for retailers, factories and restaurants. For the Spice range Steelite and Maham explored the qualities of the unglazed outside and glazed inside, using a range of glaze effects - coloured and neutrals/semi matt and mottled. The range includes items not just for restaurants and hotels but also includes items for small bites/short eats and bar food. It mixes well with Craft, Brown Dapple, Robert Gordon and Anfora.

OFF GRID STUDIO

The essence of hand-thrown stoneware

Steelite have teamed up with Off Grid Studio to create a unique collection of stoneware. A passion for hand-crafting ware on a potter's wheel led Off Grid Studio to start a business and build a 100% 'off-grid' home and pottery studio on bordering a National Park in Gembrook Australia.

The raw clay body, representing the terra of the surroundings, is generally present in the minimalist stoneware shapes. Functionality and a strong connection to the hospitality industry drive the design process.

- Handcrafted aesthetic
- Fusion of form & function
- Unique collection
- Freezer, oven, microwave & dishwasher safe.

The essence of hand-thrown stoneware

Gembrook consists of two colours, creamy white and deep grey, where each item is decorated with a sheer white, hand-applied glaze, allowing the beauty of the clay to show through. The bottom of each piece and small portions of the top are unglazed, to authenticate where the potter would hold each piece while glazing, resulting in double dips, drips, and exposed clay lending to its hand-thrown authenticity. Meanwhile, a handful of pieces flaunt a distinct indent, which mimics the thumb mark of the potter and creates a conversation piece for diners.

Inspired by the traditional silversmith technique of planishing, the Honeybourne collection makes a tactile and light reflecting statement on the table. Featuring classic proportions of long tines and a traditional heel, the deliberately thin neck exaggerates the wide curves of the subtly textured handle. The feel in the hand is well-considered as the texture fades to smooth at the neck of each piece.

Sandstone cutlery by Robert Welch, features a unique 'stippled effect' which adds texture and tactility to the handles. Our Designers have added a subtle feature, by incorporating a gradual fading of the texture into the neck of each piece. Sandstone is a slender pattern and has a comfortable, 'soft feel' in the hand.

The beautiful surface reflects the light with a gentle glow, creating a statement on the table alongside both formal and casual tableware.

Westbury Bright cutlery is a geometrically inspired design, featuring an unusual angled v-shaped bolster on the knife. The tapered handles finish at a diamond point.

Comfort in the hand is a Robert Welch Designs signature and whilst not an obviously curvaceous design, the finish of the pieces is smooth to the grip.

Ashbury is a classic pattern with a contemporary twist; the knives feature a fluid curve which creates a feeling of movement. The table knife is designed to be poised for use, resting vertically with the cutting edge raised from the table top. The classic styling of Ashbury forks and spoons contrasts against the modern silhouette of the table, dessert and steak knives, as the gentle kick up of the end of the fork and spoon handles presents a mirror image of the downward curve of the knife handle. Traditionally shaped knives are also available.

High-quality knives

MKS knives, created by designer Adam Simha, are the knives you will always reach for, feel compelled to care for, and never want to put down. Adam's original knife designs are based on over 20 years of knife making, his own professional kitchen experience, and the custom knives he has built for working chefs. He provides service for these knives exclusively, giving him first hand feedback on every detail from material to blade shape to edge geometry, to hardness, to hardware.

"1998 I formed MKS Design to pursue the practice of furniture and homewares design and fabrication. The knives I began making and enjoyed the most turned out to be knives for cooking, which brought me full circle back to the sphere of culinary arts." - Adam Simha.

Candlelight without the melted wax mess

Liquid candles from Hollowick are the ideal choice for lighting up the tabletop. These liquid fuel cells burn cleaner than solid wax candles and are disposable, making clean up quick and easy without the melted wax mess. Available in a variety of sizes, a strategically chosen liquid candle will sit low inside a table lamp in order to illuminate the colours or beauty of the lamp itself. With a burn time that is twice that of a standard tealight, Liquid Candles from Hollowick are staple for those restaurants & hotels looking for the elegance of live flame.

Proper use of liquid candles

In order to illuminate the colours and beauty of a lamp, select a liquid candle that sits low within the lamp, and does not touch the sides.

Chafing dishes at a phenomenal price point

We are pleased to bring hydraulic closing chafing dishes to the Creations collection. Each chafer has a convenient large glass view in the cover in order to increase visibility of the food while minimising the times the lid is opened, therefore keeping the heat in and the food at proper serving temperature. Additionally, the easy-to-remove hydraulic lid closes on its own to ensure that food is kept safe and covered during service. Great for any buffet display, these chafers are induction capable and perfectly priced for even the most value-conscious operators.

Serving food in style

Create an inviting & cosy presentation on your buffet with Homestyle Chafers from Creations. Available in brushed stainless steel and bronze finishes, these unique vessels look like cookware you'd use at home, but have the functionality of a high-volume chafing dish at a great price point. Safe for the oven, freezer or on induction, the Homestyle Chafers are also dishwasher safe, making cleanup quick and easy.

Care & use instructions

Seventy percent of product damage/loss occurs at the dishwasher table. To avoid such damage, ensure that the dishwasher table has sufficient space to store dirty items and avoid overloading trays or trolleys.

All items should be separated into type prior to washing. All washing equipment chemicals should be maintained and checked regularly. Check stock often; storage facilities should allow for stock rotation to prevent overuse.

China

- Should be washed within 45 minutes of removal from the table and pre-rinsed
- Avoid contact between china, dinnerware and metals
- Abrasive cleaning aids should not be used, i.e. scouring pads, steel wool, etc.
- Minimise handling to reduce glaze abrasion
- Do not stack more than 15" high
- Do not slide items across each other to reduce abrasions
- Be sure to rotate your stock to prevent uneven wear
- Only stack product that are designated stackable

- Use warm, soapy water or a neutral dishwashing liquid for cleaning

- Cutlery should be washed separately from dinnerware
- Wash as soon as possible to prevent pitting from acidic food deposits
- A pre-soak in warm water is recommended to loosen food particles
- Make sure your cleaning agent is void of any abrasive or corrosive qualities
- Use upright baskets to prevent scratching and to aid drying

- Do not overfill the upright cutlery baskets
- If using a low temperature dishwashing system, carefully follow the manufacturer's instructions to avoid staining or corrosion
- On completion of the wash, allow the cutlery to air dry, hand dry if necessary
- Be sure cutlery is completely dry before storing in a dry location away from the kitchen

- Wash knives with warm water and a mild detergent, rinse well and dry thoroughly
- Not recommended for high temp dishwashers that exceed 167°F / 75°C

BLADE SHARPENING

- Serrated blades cannot be sharpened
- Blades with no serrations can be sharpened as needed
