THE ART OF PRESENTATION

steeliteutopia

THE ART OF PRESENTATION

You're not just setting a table. You're creating an experience, telling a story, sharing a culture - and food is at the heart of it. Food brings people together and connects them to tradition and inspiration.

At Steelite-Utopia, we believe that tableware should do more than serve your food - it should serve your vision. We design, craft and curate the very best in tableware for chefs and concepts across the globe.

Partnering to create an unmatched range of inspired tabletop experiences where shape, colour, texture, light and weight combine to feed the senses. Helping our customers set the stage for their menus and their brands. Elevating presentation to an art. Steelite-Utopia. The Art of Presentation.

United Through Innovation

Steelite-Utopia delivers a comprehensive and unmatched solution for the hospitality industry. Combining durable ceramic tableware with an extensive range of glassware, cutlery, buffet items, and lighting, we provide a cohesive product suite designed to meet every need of dining and hospitality presentation. Our products balance resilience with style, adhering to the highest quality standards while enhancing the dining experience through thoughtful design and expert craftsmanship.

Positioned to not only enhance its market presence but also to deliver unparalleled value to customers, offering a one-stop solution for all tableware needs with a focus on quality, innovation, and sustainability.

A truly global enterprise

With a wide range of products, Steelite-Utopia offers a unique solution for any venue. Dominating nearly every industry sector from commercial catering to leisure and hospitality markets, the opportunities are endless with our vast product portfolio. Our core dinnerware lines, Steelite Distinction and Steelite Performance, and proprietary brands, William Edwards, Utopia, Anton Black, Crown Glassware, Creations, Folio, Varick, Aspen, Strahl, D.W. Haber, Kenny Mack Designs, Hollowick and Illumina are complemented by collections from strategically chosen specialist partners.

Icon Guide

Steelite International Made For Life

Each piece is inspected, examined and tested so you can be confident it will withstand the rigours of the modern commercial kitchen

Steelite International Lifetime Edge-Chip Warranty

Your assurance that all Performance and Distinction products manufactured in our UK factory are fit for purpose.

5 Year Edge Chip Warranty

Warrants a selection of products against edge chipping under normal usage conditions during the service life of the product.

Stacking

Items that are designed to stack when space is at a premium.

Crystal

A selection of glassware ranges that are made from fine crystal giving clarity and finer rims.

100% Recycled

Made from 100% recycled glass.

Starglass

The composition of selected raw materials gives this glass a high purity in the absence of heavy metals, to ensure 100% recyclable products. Exceptional brightness and clarity.

Lined & CE

Many of our glassware items can be government stamped and lined to satisfy all European legal hospitality requirements.

Polycarbonate

Polycarbonate is a very strong and virtually unbreakable plastic, the strongest plastic of all.

SAN

Styreneacrylonitrile is stronger than polystyrene and can take a high amount of usage but will break under heavy pressure.

Polystyrene

Not as strong as Polycarbonate, Polystyrene items are often used for shot glasses where strength is not as important.

Axis Buffet Collection

Limitless configurations

The Axis Buffet Collection brings a clean, structured aesthetic to any buffet setup, inspired by the linear elegance its risers create. Designed for height and versatility, Spire Risers add dramatic elevation with three height options, maximising vertical space while conserving tabletop surface. The central Pivot Risers offer a functional core to the collection, accommodating all gastronorm-sized tiles and baskets, and are available in three heights to add depth and dimension to any presentation. With limitless configurations, the Axis Buffet Collection adapts effortlessly to meet every display need, bringing style and functionality to every setting.

Effortless breakfast service

Creations cereal and milk dispensers bring convenience and style to any breakfast bar. Crafted with durable acrylic bodies, they offer clear visibility of contents, allowing guests to easily select their favourite cereals. Designed for effortless service, these dispensers add a refined touch to any breakfast buffet, while the juice dispensers create a sleek, inviting beverage station that adapts effortlessly to any event.

Fusion Buffet System

Sophistication for any setting

The Fusion Buffet System is a unique and versatile solution for your foodservice presentation. With multi-sized risers, juicers, and baskets, you can mix and match your display with the numerous wood & metal finishes available.

Designed from reclaimed wood, the teak products are environmentally friendly and cost effective, while its natural properties make it resistant to heat, light and moisture. Resin, tempered glass or teak wood tiles can also be used to add new heights, while the 14" risers can be outfitted with universal inserts that make cooking and heating easier.

**Resin Tiles
& Shelves**

Resin tiles are durable, non-absorbent, and food and dishwasher safe.

**Wood Tiles
& Shelves**

Durable teak wood

**Glass Tiles
& Shelves**

Tempered glass

Elevate your buffet presentation

The perfect addition to the Fusion Buffet System are the black Teflon and stainless steel square and rectangle risers. These multi-sized, elevated frames offer beauty and height for your presentation, and are presented with interchangeable inserts in resin, teak wood and tempered glass.

Ice Cell

The perfect solution for keeping your buffet food fresh and chilled for extended periods! This innovative chilling system is designed to keep food cold for at least 3 hours, ensuring freshness and quality. Keeping food at the right temperature is crucial to prevent bacterial growth and maintain its taste and texture. The D.W. Haber Ice Cell is specifically designed to fit the standard and low profile Fusion Gastronorm risers, available in 3 finishes: Ash Grey, Grey Wash, and Natural Teak wood.

1. Store the cooling blocks in the freezer overnight for the best results.

2. Place the cooling blocks in the BPA free tray, and set the temperature equalisers on top of the blocks to maintain even cold distribution.

3. Add the porcelain Gastronorm platter and enjoy chilled food for at least 3 hours.

Ice Cell Set

Visual Display

Creating a visually appealing buffet display is crucial in the foodservice industry, as it is the first impression that guests will have of the food & service. At Steelite-Utopia, we provide professional caterers with the right tools to create the perfect presentation every time.

Elevate your buffet presentation

Bring your buffet to new heights with the wood offerings from Creations Buffet. Available in various shapes and sizes, these platforms offer a unique and exciting solution for your foodservice presentation. Designed from acacia wood, the serving boards are strong, durable, and resistant to staining, while providing a look that will attract the eyes of your guests every time.

Backed by D.W. Haber's 100-year warranty

Elevate your buffet service with D.W. Haber's Hinged Chafers. With the capability to work on induction, heater stands, or chafers frames, these chafing dishes feature a clever, patented hinge that will stop the lid in any position, making it the ultimate choice for foodservice. These vessels are available with a solid or full glass lid, and have a unique built-in condensation system that returns condensation back in to the water pan.

Chafing dishes at a phenomenal price point

We are pleased to bring hydraulic closing chafing dishes to the Creations collection. Each chafer has a conveniently large glass view in the lid to increase visibility of the food. This feature allows for fewer opens, thus keeping the heat in and the food remains at proper serving temperature. Additionally, the easy-to-remove hydraulic lid closes on its own to ensure that food is kept safe and covered during service. Great for any buffet display, these chafers are induction capable and perfectly priced for even the most value-conscious operators.

 D=Diameter L=Length W=Width H=Height • All products are measured at max capacity (oz).

Proprietary Teflon-coated stainless steel

The lightweight Homestyle induction chafers are your go-to vessels for fuel or induction heating. Comprised of stainless steel or coated in black, white or red/black Teflon, these chafing dishes include a food pan, and are chip and scratch resistant. More so, the rectangle chafers have a built-in lid holder for convenient buffet service.

Serving food in style

Create an inviting and cosy presentation on your buffet with Homestyle Chafers from Creations. Available in brushed stainless steel and bronze finishes, these unique vessels look like cookware you'd use at home, but have the functionality of a high-volume chafing dish at a great price point. Safe for the oven, freezer or on induction, the Homestyle Chafers are also dishwasher safe, making cleanup quick and easy.

Accessories

Utopia's extensive Cast Iron collection showcases several shapes ideal for oven to table service, from casserole to skillet to wok we have every option covered. With Acacia wood boards available, Cast Iron pieces can be taken straight from the oven to the table.

- Not recommended for Dishwasher
- Ensure completely dry before storing or stacking as items left wet may be prone to rusting.

Authentic and versatile

Estrella is an authentic collection of Spanish terracotta, crafted using traditional techniques that celebrate the heritage of tapas culture. Each piece is designed for true oven-to-table cooking, allowing dishes to be prepared, heated, and served in the same vessel for an immersive, genuinely Spanish dining experience.

Suitable for use in conventional ovens, microwaves, and freezers, the range marries rustic charm with everyday practicality. As with all artisanal terracotta, its natural character requires thoughtful handling to preserve its beauty and performance.

Induction, Chafing Fuel & Burners

Commercial catering is easier with induction, chafing fuel and burner solutions from Steelite-Utopia. The best alternative to open flame, induction technology utilises magnetic currents to heat pots, pans & chafing dishes to provide a safe & efficient cooking experience. Chafing fuel from Hollowick is portable, easy to use, and provides consistent heat for hours, making them the ideal choice for catering events.

The combination of these options gives any foodservice operator the flexibility to host a variety of events, ensuring that food is cooked & served at the right temperature for maximum enjoyment.

Power Cell

Cordless warming induction for use anywhere

The D.W. Haber Power Cell is a revolutionary solution for keeping food hot for extended periods of time. The sleek and elegant design makes it a stylish addition to buffets & food stations, and its cordless battery operation allows it to be used anywhere. The Power Cell has a 5.5 hour recharge time so it can be used for multiple meals per day, and it is a cost-saving solution as it compares to repetitive purchases of chafing fuel. The first of its kind, this induction unit is energy-efficient and operates quietly, ensuring that it won't disturb the ambiance of the setting.

Hollowick • Liquid Chafing Fuel

Easy Heat

Maximum heat performance

The proper placement of any chafing fuel source is critically important to have maximum heat performance. With Hollowick Easy Heat® Chafing Fuels, the wick is adjustable to accommodate different temperature levels and the can stays cool for easy handling. Simply adjust the wick to change the heat output between standard, low and high, then place on the fuel holder or table beneath to properly heat the chafing dish.

Consistent flame & adjustable heat

Easy Heat® liquid chafing fuels are the go-to choice for buffet service. With a consistent flame for even heat, the wicks are located outside the canister keeping the flame position the same as it burns and the can cool so servers can easily handle during service. The wicks are also easily adjustable to provide different levels of heat to suit operator needs. Comprised of Diethylene Glycol, Hollowick's Easy Heat® fuels are non-flammable and enclosed in a sealed canister to prevent spill accidents and reuse on separate occasions.

Heat Lamps

Ideal for maintaining safe temperatures while chefs prepare and serve food on a buffet, this collection of heat lamps will create a standout presentation. With telescoping lamps your catering expectations will be far exceeded through features such as multiple finishes.

Versatile buffet presentation

Expanding your hot buffet just got easier with heat lamps from Creations. These fixed-height lamps are available with a standard power cord for both UK and EU usage. Available in both single and double heads, the Creations heat lamps offer brilliant functionality and make a statement with any buffet presentation. Now available with a black powder coating for versatile buffet style and durability.

Beverage Service & Cereal Dispensers

Beverage service & cereal dispensers are essential for venues looking to create the ultimate buffet presentation. Steelite-Utopia's Collection of 18/10 stainless steel beverage servers provide elegance & style, while the durability is tested and approved for commercial foodservice.

Cereal dispensers help minimise waste and maintain cleanliness, creating that lasting impression that professional caterers desire.

Axis Beverage Collection **NEW**

Sleek beverage solutions

Elegant and efficient, Creations Coffee Urns and Juice Dispensers are designed to elevate any buffet setup. The tall and sleek fuel urns feature a concealed fuel can in the base post, ensuring a modest heat source for beverages. Perfectly balancing form and function, these urns and dispensers provide a sophisticated look that complements a range of settings, from brunch spreads to high-end hotel buffets.

Axis Buffet Collection

Effortless breakfast service

Creations cereal and milk dispensers bring convenience and style to any breakfast bar. The triple cereal dispenser features a rotating base, making it easy for guests to serve themselves from all angles. Built with durable acrylic bodies, these dispensers ensure clear visibility of contents, allowing guests to quickly choose their favourite cereals. Designed for effortless service, add a refined touch to any breakfast buffet.

Beautiful display, mess-free service

Ideal for hotels, restaurants, and cafeterias, the Creations Cereal Dispensers feature an elongated tube to beautifully display and serve your favourite cereals. The rubber turn-style mechanism warrants a mess-free service, ensuring that the food won't crumble and helps control food cost. Find the perfect match for the cereal dispensers in the D.W. Haber Insulated Milk Dispensers. Available in Tempo, Tower or Millennium, these dispensers are designed with an ice sleeve that keeps milk at refrigerator temperature for over 5 hours.

Custom Powder Coating

Create a unique buffet presentation with custom powder coat options on our stainless steel buffetware. Available in a textured finish and a wide variety of colours, high temperature powder coat is durable, dishwasher safe, hides fingerprints and creates a new fresh look on any buffet.

Custom powder coating

Powder Coating is a popular option for buffet products in the commercial foodservice industry. It's a type of coating that is applied as a free-flowing, dry powder to the surface of a product. Powder coating creates a hard, durable finish that is resistant to scratches, chipping and fading, making it ideal for high volume use and a demanding buffet service environment. It also enables operators to tailor the colour & finish of chafing dishes, urns, or heat lamps to match their brand or decór. Available in a vast selection of colours or finishes, create a professional and cohesive look on any buffet service with custom powder coating. Contact us today to learn more!

Craft

Craft melamine extends to buffet service

Give your buffet an upgrade with these large melamine serving pieces from Creations. Designed to replicate our ever-popular Craft dinnerware collection, this melamine offering is made to withstand the rigours of foodservice and is dishwasher safe. Craft melamine has a neutral colour palette that blends well with existing service items, providing the opportunity for a customer to create a personalised and on-trend presentation.

Our 100% FSC approved birch wood cutlery are easy to handle and Eco-Friendly. Fully biodegradable disposable wooden cutlery can be used with both hot and cold foods. Perfect for takeaway, outdoor events and for environmentally driven venues.

Economy Wooden Cutlery

Natural Sugarcane Cutlery

This range, crafted from sugarcane, represents our commitment to environmentally friendly alternatives in the hospitality industry. The collection is designed with expertly engineered ridges to enhance strength and durability. These ridges ensure that our cutlery stands up to the rigorous demands of hospitality use, while being a single-use, eco-conscious choice.

Italian Heritage

Textures typical of Italian tradition

Modern shapes are combined with rich glass decoration to emphasise their brilliance. This is a texture reminiscent of majolica, a great Italian tradition dating back to the Renaissance.

modern-twist **Placemats & Trivets**

The evolution of a functional linen for tabletop

Modern-twist inspires a better dining experience through design, function, and social responsibility by producing innovative, quality products. Using pure, hand printed silicone, Modern-twist has successfully created a line of placemats, table runners and trivets that are eco-friendly and 100% food safe. Currently used in top hotels, restaurants and airports worldwide, these linens are commercial dishwasher safe, BPA free, and have no memory so they always lay flat. With a look as elegant as cloth and more functional than vinyl, Modern-twist is the perfect addition to your dining room table.

Serving Utensils

Even serving utensils should bring style and refinement to a buffet presentation. Steelite-Utopia proudly offers exceptional 18/10 stainless steel collections.

Spoons, ladles, tongs and more

No buffet presentation would be complete without its serving utensils. From a clean and sleek look to a fingerprint-free hammered finished, D.W. Haber offers a variety of 18/10 stainless steel utensils that are suitable for foodservice.

Build your own base and Fixtures - Dark-Lux

Dark brown stained bamboo | Sandblasted Copper plated stainless steel

The cooling centrepiece

Every service needs a showstopper - but what if it was functional too? Moby's double-wall structure keeps drinks chilled and surfaces dry, while its contemporary design makes it stand out. Fill it with ice for a bottle display or fit it with a stainless steel bowl to serve delicious punch or fresh fruit. Whether you choose the countertop or freestanding unit, Moby steals the spotlight every time. Compact in size but big on impact, the Moby Countertop Unit brings a sculptural presence to any setting. Tall, sleek, and remarkable, the Moby Freestanding Unit is designed to stand out like a sculpture.

Fresh, fun, and versatile

The Oval station is made to shine indoors or out. Its sculptural form comes in modern colourways and can be paired with an umbrella for extra charm and shade. From a lively gelato stand to an eye-catching mixology counter, Oval can adapt to any setting. Used with its core base tabletop, it becomes anything you need it to be with durability, functionality, and a sprinkle of vacation.

Mogogo's cover version of the archetype iconic market cart

These carts have existed for centuries for goods transportation and for merchandise displaying at markets around the world. Mogogo revives this concept, by updating the design and materials while respecting the past. Bent bamboo beams are the core of the Cantine Cart, giving the construction strength in a streamlined style. The lightweight bamboo structure is durable, and with additional decorative metal elements it creates a fine tension between a traditional look and advanced design.

Fusion Buffet System

Teak Wood Finish

- Not dishwasher safe.
- Use a soft cloth with water to wipe down surface.
- Do not use any chemical products or abrasives.

Teflon and Stainless-Steel Coating

- Dishwasher safe.
- Clean in dishwasher or use a soft cloth sprinkled with a few drops of dishwashing liquid to wipe Teflon surface cleans. Wipe off soapy residue with a damp cloth.
- A stainless-steel cleaner can be used to polish stainless steel risers.

Tile Inserts - Resin, Teak Wood, and Glass

- All dishwasher safe, except for wood tiles. Never put wood in the dishwasher.
- Teak wood - wipe down with a soft damp cloth and few drops of dishwashing liquid. Wipe off residue with a soft cloth.
- Resin and Glass - dishwasher safe.

Chafers & Marmites:

Stainless Steel

- Exterior frame and food pans are dishwasher safe.
- The chafing dish frame and cover may be cleaned with warm, soapy water or in the dishwasher.
- The induction water pan should be hand washed.
- Occasionally the frame may need polishing. Use a stainless-steel cleaner or glass cleaner without ammonia.
- Over time the water pan may accumulate water deposit. This can be removed with a de-liming solution.

Homestyle Cast Iron Chafers –

Teflon Coating

- Dishwasher safe.
- Rinse with warm water and use a soft nylon brush to remove stuck-on bits before loading in the dishwasher.

Food Pans

- Dishwasher safe.

Induction Ranges

- Not dishwasher safe.
- Avoid abrasive cleaners and scouring pads.
- Allow the surface to cool before cleaning.
- Wipe clean using a soft cloth and mild dishwashing liquid soap. Wipe off soap residue with a damp cloth.

Heater Stands:

- Dishwasher safe.
- For aluminium hot plates and grills, a degreaser can be used to remove black stains from fuel use.

Induction Range:

- Avoid abrasive cleaners and scouring pads.
- Allow the surface to cool before cleaning.
- Wipe clean using a soft cloth and mild dishwashing liquid.
- Wipe soap residue with a soft damp cloth.

Heat Lamps:

- Not dishwasher safe.
- Make sure power is switched off before servicing unit.
- Unplug the unit from the power source.
- Allow lamps to cool before cleaning the unit or replacing bulbs.
- Remove bulbs and use a mild detergent such as dishwashing liquid with a soft sponge or cloth to wipe down.
- Dry with a soft cloth. Completely dry before the next use.
- Do not immerse the unit in water and never use abrasive or scouring powders.

Carving Boards:

Wood Boards

- Not dishwasher safe.
- Hand wash the board immediately after use with water and dishwashing soap.
- Pat the board dry with a paper towel or dishtowel immediately after cleaning.
- To maintain and extend the board life, season weekly, bi-weekly or monthly by wiping food-grade mineral oil over your dry board's exterior. Let the oil sit for a few hours. Wipe off excess oil with a dry cloth.
- Never use olive or vegetable oil to season a carving board.

White Poly Board

- Dishwasher safe

Black Granite

- Dishwasher safe

Beverage Urns, Milk & Cereal Dispensers:

Juice & Beverage Urn, Milk Dispenser

- Components are not dishwasher safe.
- Do not use abrasive products.

Daily:

- Remove nozzles and diffusers and soak them in warm, soapy water.
- Use hot water and mild soap to clean inside of dispenser and then rinse thoroughly.
- Clean outside with a warm wet cloth.
- Clean spigot by removing rubber seat cup and clean by brushing inside of faucet.

Regular Basis:

- Flush and clean water lines.

Coffee Urn

Cleaning

- Always rinse urn immediately after each use.
- Add a small quantity of hot water, brush insides, and rinse with hot water.
- Never immerse base of Urn in water.
- Clean spigot by removing rubber seat cup and clean by brushing inside of faucet.
- Tip - Use rubber gloves to ensure the faucet is tight when you screw it back on to prevent leakage.

De-Staining

- Put 1 cup baking soda into your stainless-steel coffee pot and fill with warm water.
- Use a dish brush to scrub inside of the pot with baking soda solution in it.
- Pour solution out and thoroughly rinse inside with hot water until it runs clean.

Cereal Dispenser

- Disassemble all parts and clean interior with warm soapy water, rinse thoroughly.
- All parts should be completely dry before reassembling.

Stainless Steel Display Items

(Cold Buffet & Wine):

- Dishwasher safe.
- Do not use steel pads, wire brushes or scrapers. Do not use powders, or cleaners that contain chlorides, bromides or iodides.
- Always rinse thoroughly with fresh water after every cleaning operation.
- Wipe unit dry with a soft cloth to remove water.
- Always rub in the direction of the steel grain for maximum effectiveness to avoid marring the surface.
- For smears or fingerprints, wipe with a clean slightly damp cloth. If that doesn't work, use a stainless-steel commercial cleaner.

Kenny Mack Resin

- Dishwasher and food safe.
- Product doesn't stain however on darker colours a white film may develop over time due to drying agents. If this occurs, wiping the surface with any type of oil will bring back the original colour.
- If any chipping occurs, use light sandpaper or a rough sponge to buff and smooth down the chip.

Creative Tableware includes an array of products all of which require different care to ensure you keep them at their best. See below for information on how to look after you Creative Table products.

Estrella Traditional Terracotta:

- Suitable for traditional ovens, hobs, microwaves & freezers.
- Terracotta is naturally fragile and should be handled with care.
- Terracotta is naturally porous, soaking in water should be avoided.
- Terracotta is suitable as oven to tableware.

Fuji: (as above)

- However, with increased strength and durability.

Copper Presentation Serveware:

- Please be aware copper will naturally oxidise over time.
- To maintain an optimum finish, hand washing is recommended.
- Using metal scourers or abrasive cleaners will affect the finish of your copper serve ware, to avoid this, wash in hot water straight after use with a soft cleaning sponge.

Wire Baskets & Presentation Papers:

- Not suitable for cooking and should be used as presentation only.
- Suitable for dishwashers.
- Not suitable for ovens or microwaves.
- Presentation papers are 100% biodegradable and can be discarded in food waste.

Slate/Granite:

- Being natural stones – our slate and granite items may vary slightly in size and texture.
- The characteristics of slate are that the edges can naturally chip and create sharp points – care must be taken when handling these items.
- To clean wipe down with a damp cloth and mild detergent.
- For Slate – any scratches can be treated with natural oil and this should be followed from time to time to keep the product looking its best.

Cast Iron:

- Cast Iron is ideal for use in the oven and on stoves and withstands temperatures up to 260°C.
- Always use heat protective wear when handling the products – handles will become extremely hot.
- Never place hot items directly onto unprotected surfaces – it is recommended to use the Acacia Wooden Boards that are available with all Utopia Cast Iron pieces.
- For care of the Cast Iron Wooden Boards – follow the Acacia Wooden Board/Tray' care advice.
- Always use Plastic/Wooden utensils – metal may damage the surface of the enamel.
- Abrasive scourers may also damage the enamel surface – to remove tough residue soak in hot soapy water.
- Not recommended for dishwashers
- Ensure completely dry before storing or stacking as items left wet may be prone to rusting.

Bento Boxes:

- Not suitable for dishwashers, hand wash only.
- Not suitable for oven or microwave use.
- Abrasive scourers may damage the surface of the item – use a soft sponge and soak in hot soapy water for tougher residue.

Natural Woods:

- Store away from direct heat sources and direct sunlight.
- Hand wash in warm soapy water.
- Do not soak in water.
- Dry immediately.
- Not dishwasher safe.
- Bamboo drink paddles are suitable for glass washers – always follow the recommended dish washing procedures outlined by the manufacturer and use the correct dose application of detergent.
- Sourced from a sustainable wood source.
- Darwin, Acacia, Olive and Fir Wood will vary significantly in size and shape as these are natural cuts of wood.
- Restore Natural Woods with a wiping of olive oil.

**Enamel:**

- Oven proof and Dishwasher safe.
- For best results, after use soak in warm water, then wash gently with a liquid detergent.
- Do not use abrasive cleaning pads or powders.
- Items will chip if handled roughly.

Trays:

Plastic Black Non-Slip Trays:

- Always ensure trays are stacked on flat surfaces to eliminate accidental damage.
- Not suitable for dishwashers – wipe down with a clean damp cloth after each use.
- Do not leave submerged in water.
- Do not stack whilst damp.
- Do not overload trays, may cause accidental damage or injury.

Fast Food Trays:

- Always ensure trays are stacked on flat surfaces to eliminate accidental damage.
- Fast Food Trays are suitable for dishwashers – always follow the recommended dish washing procedures outlined by the manufacturer and use the correct dose application of detergent.
- Fast Food Trays have stacking lugs to accelerate drying and can therefore be stacked straight after washing without prior drying.
- Surface can become slippery when wet, extra caution needed.
- Always stack separately to other crockery in the dishwasher to ensure items do not damage each other in the cycle.

Creations Wood:

To best maintain product finish and condition:

- Do not place near an open flame or grille.
- Products should be stored in a dry location at room temperature.
- Do not store near heat sources or in humid places.
- This product should not be used in the dishwasher, oven, microwave or freezer.
- Clean with a soft damp cloth or wash with hot soapy water, do not soak in water or wash with harsh detergents.
- Sanitise using an antibacterial spray or food safe liquid sanitiser.
- Dry promptly after cleaning, ensure products are dry before stacking.
- In order to maintain product finish and condition, apply a light coat of mineral oil with a clean dry cloth, to prevent wood from drying and cracking.
- Do not leave in direct sunlight for long periods of time.

Modern Twist:

- All products are free of by products and fillers.
- No BPA, PVC, lead, latex or phthalates.
- Dishwasher safe on the top rack.
- Keep away from sharp objects.
- To prevent staining rinse or wipe with a damp cloth after each use.
- Do not use chemical sprays.

Placemats

- Hand printed pure silicone, non-porous, food grade and plastic-free.
- High heat resistance up to 425°F / 220°C (not to be used as a trivet).

Trivets

- Pot holder + trivet, the interlocking design turns the trivets into a table runner.
- High heat resistance up to 675°F / 355°C.

Handling & Care:

The correct handling and care of your Melamine buffet and tableware will enhance the appearance and longevity of the product in use. The following guide will assist you.

- Handle melamine dinnerware like any quality dinnerware.
- Clean as soon as possible to help avoid staining and protein build-up.
- Use only plastic pads or plastic type bristle to remove dried food.
- Pre-soak melamine products, if necessary, in a high quality pre-soak dishwashing detergent.
- Immediately remove any damaged or chipped melamine products from operational use.
- Melamine products can withstand heat up to 212°F (100°C).
- Do not use in oven, microwaves or expose to direct flame, this can cause cracking and blistering from the heat.
- Do not use with heat lamps, conveyor belts, or plate warmers.
- The use of serrated knives is not recommended on melamine products.
- To avoid chipping and scratching, do not strike melamine products with or on any hard surface while attempting to remove excess food.
- Do not use harsh or abrasive cleaners, steel wool, or metal scouring pads.
- Do not use chlorine bleach or chlorine-based sanitising solutions when caring for melamine products.
- Only use sanitisers developed for commercial use.
- To avoid chipping and scratching, do not overload your dishwasher rack.

Melamine is a thermosetting plastic that is strong, lightweight and hard with the look and feel of ceramic product. It is highly break and scratch resistant, but it is NOT 100% unbreakable, it can be scratched and broken.

Melamine is often used for dinnerware, mixing bowls and laminated counter tops because it resists acids, alkalis and most food stains.

Melamine is hard and smooth and can withstand some fairly warm temperatures, but it does absorb heat and will soften if it gets too hot. While melamine is perfectly safe when it comes in contact with warm temperatures, melamine is not microwavable.

In general, melamine products are not designed to withstand temperatures that exceed 100°C and should not be submerged in boiling water or placed in the oven.

Also, be sure to avoid exposure to hot objects or prolonged exposure to boiling water. Melamine is suitable for use over a bain-marie as the water is circa 70°C, to hold food above a temperature of 60°C.

Melamine is dishwasher safe (as long as the water temperature does not exceed the 100°C guidelines). Scouring powder should not be used, as it will scratch the surface, also never use chlorine bleach on melamine buffetware.

Destaining

- Periodically presoak melamine products before dishwashing to prevent staining and to maintain lustre.
- For staining, use an oxygen-releasing compound such as Dip-It XP (ECOLAB).
- Sponges or woven plastic pads are recommended for cleaning.
- Do not use harsh or abrasive cleaners, steel wool, or metal pot scouring pads to remove food or stains.

Gastronorm Size Guide

Food pans available in standard Gastronorm sizes.

Storing:

- Placing rubber or plastic mats on large stainless steel surfaces usually found in industrial kitchens can help reduce metal marking to ceramics.
- Rubber or plastic mats can also be placed in stacking areas, trolleys or sinks to further reduce the chance of metal marking.
- Replace or repair any plastic coated racks that may have become worn and the metal underneath exposed, as this again could cause damage to your ceramics.
- Do not stack items more than 15" high.
- Only stack products that are designated as stackable.

Using:

- Don't scrape off leftovers – wipe off with a paper towel or a plastic/rubber scraper.
- Do not slide items across each other to reduce abrasions.
- Minimise handling to reduce glaze abrasion.
- Be sure to rotate your stock to prevent uneven wear.
- Use cutlery that is of a high grade steel as a minimum requirement, as some cutlery in use today is made from low grade steel, which being soft in nature increases the chance of metal marking.
- Using metal utensils against ceramics can also cause metal marking, try to keep this to a minimum or use plastic utensils.

Washing:

- Seventy percent of product damage/loss occurs at the dishwasher table. To avoid such damage, ensure that the dishwasher table has sufficient space to store dirty items and avoid overloading trays or trolleys.
- To ensure the quality level of the product it is important to take note of the following:
- Items should be washed within 45 minutes of removal from the table and pre-rinsed.
- Abrasive cleaning aids should not be used, i.e. scouring pads, steel wool, etc.
- All items should be separated into type prior to washing.
- Stack ceramics separately to other crockery in the dishwasher such as cutlery or pans and ensure items do not vibrate against each other during the cycle.
- Avoid contact between ceramics, dinnerware and metals.
- Strictly follow recommended dishwashing procedures set out by the manufacturer and use the correct dose application of the detergent.
- The use of an approved detergent is recommended.

- For effective cleaning, we recommend that the dishwashing temperature and the final rinse be set between 55 to 60°C. Operating at higher temperature levels in order to wash crockery 'properly' is a definite case of overkill and detrimental to all tableware.
- Repair or replace any plastic coated metal in the dishwasher that may have worn away as this may result in metal marking.
- Overdosing on detergent or using excessively high temperatures will cause deterioration to the glazed finish or damage any decoration on the product.

Metal Marking:

- Metal marking occurs when a ceramic item comes into contact with metal surfaces or utensils, which can cause metal tracing to be left on the ceramic item due to certain types of steel being softer than the glaze of the ceramic.
- Despite the unsightly appearance of metal marking, it is not a cause for concern as it can be easily removed by the application of a gentle household non-abrasive cleaner.

Custom Decoration:

- Gold and platinum decorations are not microwave safe.
- Utopia ceramics are suitable for microwave use, however be advised that any decorated item that includes metal will not be microwave safe.
- Hand washing is recommended to prolong the metallic lustre of decoration.

Stainless Steel, though its name suggests otherwise, it is not completely 'mark proof'. It is much more resistant to staining or marking than other metals however contact with certain substances will start the process that leads to staining and pitting.

Storing:

- Never store cutlery where it can become damp, as this can cause corrosion.
- Store out of direct heat, as this can cause the metal to mark.
- Never leave cutlery with food on as many corrosive substances are found in food, such as acids, like vinegar and lemon juice, mineral salts found in tap water, fats and meat juices.
- Other corrosive substances are bleach and harsh detergents, so ensure your cutlery is not left to soak.
- Be sure cutlery is completely dry before storing in a dry location away from the kitchen.

Washing:

These products are specially designed to withstand the rigours of the Foodservice and Hospitality trade, including automatic dishwashing found widely in most businesses.

To ensure the quality level of the product it is important to take note of the following:

- When pre-rinsing cutlery ensure all food debris is removed before being washed.
- Follow the manufacturer's instructions, particularly in relation to adding dishwasher salt as excess salt can cause corrosion.
- Always wash cutlery immediately, never leaving it with food debris present.
- It is advisable to place cutlery vertically into dishwashers with the head up; and not too tightly packed together, this assists the water flow at the end of the cycle.
- Remove cutlery immediately after washing/dry cycle is finished and wipe over with a dry towel. If the cutlery is left to cool in the dishwasher, trace mineral salts and the dishwasher salt residue will settle on the cutlery in the moist atmosphere and start the pitting and staining process.
- Never mix stainless steel and silver plated cutlery in the same basket of the dishwasher the chemical reaction between detergent and steel can cause the silver plate to mark.
- Do not use the rinse and hold cycle on dishwashers with cutlery this will leave the cutlery to soak in water which can be damaging.

- Wood handled cutlery is not suitable for cleaning in a dishwasher.
- For PVD coated cutlery such as Gold extra care should be taken when washing.

Steak Knives:

Wood Handled Knives

- Handwashing is recommended for the best performance and optimal product life.
- Wash knives with warm water and a mild detergent, rinse well and dry thoroughly.
- Water and harsh detergents will dull the finish and dry out the handles.
- It is recommended that the wooden handles be oiled as needed.

ABS (Resin) Handled Knives

- Low temp dishwasher safe.
- Wash knives with warm water and a mild detergent, rinse well and dry thoroughly.
- Not recommended for high temp dishwashers that exceed 167°F / 75°C.
- Knives should not be exposed to extreme temperature changes, which will cause the abs handle material to crack over time.

Stainless Steel Knives

- Dishwasher safe.
- Wash knives with warm water and a mild detergent, rinse well and dry thoroughly.

Blade Sharpening

- Serrated blades cannot be sharpened.
- Blades with no serrations can be sharpened as needed.
- The frequency will depend on how often the knives are used and how well they are maintained.

Types of Metal – What is Stainless Steel?

Choosing the right type of cutlery for what you need it for can be confusing, Utopia have tried to simplify this by splitting the ranges into different types of stainless steel 18/10 and 18/0. These ranges can be further identified through the colour coded collections.

Stainless Steel is an iron and chromium alloy containing more than 11% chromium. There are three types of stainless steel used to make cutlery:

18/10

This is used for contemporary cutlery except knives; it contains 16-18% Chromium and 8-10% Nickel. This is the only steel that can guarantee against corrosion when properly cared for.

AISI Code	Generic	Chrome	Nickel	Others	Subtotal	Balance
304	18 / 10 or 18 / 8	16-18%	8-10%	3%	29-33%	Iron

18/0

This steel is used for value cutlery e.g. Parish, Economy or some value options of Contemporary cutlery. Due to the high % of chromium, it is more resistant than 13/10 but not as resistant as 18/10.

AISI Code	Generic	Chrome	Nickel	Others	Subtotal	Balance
430	18 / 0	16-18%	-	2	18-20%	Iron

13/0 or Knife Steel

This steel is used to make knives, as it can be hardened to create a sharp edge. The quality used is AISI 420, containing 12-14% chromium. This is the least corrosion resistant form of stainless steel.

AISI Code	Generic	Chrome	Nickel	Others	Subtotal	Balance
420	Knife Steel	12-14%	-	2	14-16%	Iron

Storing:

- Never use glass to carry or store cutlery.
- Do not stack glasses that have not been designed to stack.
- Use properly sized compartmented glass racks.

Polishing Stemware:

- Use white cotton gloves or 2 cloths for polishing.
- Polish the bowl first followed by the stem and then the base.
- Do not hold the glass by the stem or the base when polishing the bowl.

Using:

- Do not pick up glasses in clusters.
- Never let the beer tap come in contact with the glass.
- Do not use glassware as an ice scooper.
- Do not put cold liquids into hot or warm glasses straight from the dishwasher as this can cause cracks.
- Pre-heat glasses for hot drinks by running them under the hot tap.

Washing:

These products are specially designed to withstand the rigours of the Foodservice and Hospitality trade, including automatic glass washers found widely in most businesses.

To ensure the quality level of the product it is important to take note of the following:

- Always wash new glasses before use.
- Always use a non-caustic detergent as caustic detergents affect head retention, etch the glass and give the glass a shadowy tinge.
- Water on the premises should be stored at 60°C. If water is stored at a higher temperature e.g. 85°C, even when this is reduced because of travelling to the machine, it could still be high enough to bake debris onto the glass.
- Coffee cups should never be washed in a glass washing machine, as coffee dregs can taint the water and stain the glasses – this also applies to drinks that contain cream.
- If cracks or chips are found in glasses, they should be discarded immediately and never put in the dishwasher.
- Gold decorated glassware is suitable for handwash only.
- After washing, remove basket and leave to cool and dry.
- Do not handle stemware when hot.

**Information:**

See below for a guide to replacement seals for our Preserve Style Jars and Terrine collections.

Item Code	Item Description	Replacement Seal Code

Improved working practices for the use of Polycarbonates will extend the life of the product:

- Polycarbonate drinkware is supplied with the verified CE Mark or Lined and Stamped exactly like Glassware.
- Polycarbonate Barware is dishwasher safe to a temperature of 60°C.
- When using glass washers, it has been suggested that the use of detergent without rinse aid is preferred.
- To maintain the product in its best condition, it is recommended that a low temperature wash cycle below 60°C for both wash and rinse temperature is used. The combination of detergents and raised temperatures can lead to environmental stress cracking in the plastic surface. If washer temperatures are above this then it is recommended to hand wash the plastic barware.
- It is important to make sure that the Polycarbonates are not rubbing together during the rinse cycle in a glass washer.
- It is safe to use Liquid Renovate. This will enhance the visual presentation of the product where needed.
- Regular checking of Polycarbonates to assess scratching is needed so as to offer the customer a perfect drink.
- It is important that Polycarbonates are not stacked tightly together as the inside of the product will scratch.
- Polycarbonates are quite often found on the floor and on hard floors they will scratch. Where possible Polycarbonates should not be left on the floor.
- Polycarbonate is a tough transparent thermoplastic that has many applications, which demand high performance properties.
- Dishwasher & freezer safe.
- Items must be carefully placed in the dishwasher while avoiding direct contact with other dishes and drinkware.
- Do not wash with harsh abrasives such as brushes or scrubber pads as this may cause scratches; harsh chemicals including strong acid or alkali cleaning agents should also be avoided.
- Use warm, soapy water or a neutral dishwashing liquid for cleaning.
- Dry naturally or with a soft cloth after hand washing; we recommended using a microfibre cloth to preserve clarity.
- Product can be used normally between temperatures of -30°C and 110°C (-22°F and 230°F).
- Avoid prolonged exposure to UV light, sunscreen or chlorine.
- Not recommended for use in microwaves or high temperature sterilisers.

Polycarbonate drinkware is almost indestructible, hard and rigid and in many cases virtually identical to glass. It is the preferred product for Police Forces and Local Licensing Authorities where drink related violence is an area of concern.

Although the product is virtually unbreakable it is subject to considerable wear and tear, unlike glass, which would simply break and then be replaced, regular checking of polycarbonates to assess scratching is needed as to offer the customer a perfect drink.

Utopia Drinkware:

Drinkware is supplied in four different types of plastic:

- Polystyrene – our plastics shots are Polystyrene, these are dishwasher safe up to 100 washes.
- SAN (Styreneacrylonitrile) is stronger than Polystyrene and can take a high amount of usage but will break under heavy pressure. This product is glass washer proof.
- Polycarbonate – is a very strong and virtually unbreakable plastic, the strongest plastic of all. Our polycarbonate glassware is glass washer safe up to 500 washes.
- MMS – is a transparent copolymerization primarily composed of methyl methacrylate (MMA) and styrene monomer (SM). This is glass washer safe up to 100 washes.

Polypropylene Lids, Stoppers & Bottoms:

- Do not use strong acid or strong alkaline cleaning agents.
- Temperature should not exceed more than 104°F (40°C).
- Avoid excessive water pressure as well as objects pressing on the product or it may cause deformation.
